

Every past members leaving letter explains how the once shy, young person has developed into such a well-rounded, confident adults because of their involvement in this fantastic company. I believe this cliché to be true. This company offers so many young people experiences that we would never even dream of, the quality of each show and concert is outstanding for our age. It has taught me skills that nowhere else could, from learning to skate, dance and sing at the same time to 'the cow hit Nelly'.

My love of musicals has blossomed because of the opportunities available to us, if it be, performing them or being able to watch them in the west end on a trip to London. I believe I have met some life long friends through Centre Stage, I know that they will always be there for me having made such a tight bond though the rehearsal period and the shows. Which brings me on to my favorite experience Centre Stage has brought me. I am yet to experience anything so exhilarating as the audience applauding as the final bow takes place, even being a chorus member I still have the satisfaction of working the hardest I possibly could and being rewarded with such high praise.

Centre Stage has given me some of my proudest moments, despite only being part of it for a relatively short time, it has impacted my teen years vastly, I would personally like to thank Mark, Sue and Simon, who have been so helpful over these past 3 years and my life would not be the same without them and what they do for not just me but the whole company. Dedicating so much time to getting the best out of all of us.

It is with sadness that I am leaving this fantastic company to concentrate on my last year of a-level studies; I wish luck to everyone who has been a part of this chapter of my life. Thank you all.
